Here are THREE excellent young bulls that will be ready to work when you need them. They are all sons of Soul Man and come in three very different colors, just to show what that bull can do. They each have excellent pedigrees on the dam side. Here is an opportunity to take home something grand and put it to work in your herd.

"India" has calved for us on 2/27/06, 2/6/07 and 3/8/08. (All bull calves!) She's due to back up a month and give her new owner a Crimson Magic calf in February '09. Check her out - she's an attractive and trouble-free cow that will be an asset to any herd. Her pedigree features some classic breeding with L2 bloodlines on the top and Natural Selection on the bottom.

128 is a thick cow who consistently produces for me. She is bred to Magic's Future. All calves have been polled. You will get: low birth weight, with great length, and great wean weights also. Try her on for size. The calf with Desperado top and bottom, but not paint, you will get a black or black brindle calf.
